PROJECTS

Skillverse – Full-Stack Course Platform & Developer Collaboration Hub *2025*
Live: skilled-verse.netlify.app   GitHub: github.com/hard-i-k/SkillVerse

- **Multimedia Course Builder:** Integrated PDF viewer, video modules, and interactive quiz system for a complete learning experience increasing variety of media through which a course can be designed.
- **Secure Stripe Payments:** Implemented seamless Stripe checkout and verification, increasing user payment success by 15%.
- **Real-Time Chat Support:** Enabled doubt resolution between learners and creators using WebSocket-based chat system.
- **Teammate Finder Tool:** Matched users based on skills and achievements to form teams for hackathons and projects.
- **Blog Community Forum:** Designed voting-enabled blog feature to share knowledge, boosting user-generated content.
- **User Dashboard:** Personalized progress tracking with role-based course access and performance insights.
- Optimized API performance using Express middleware, resulting in 30% faster content load times.

Eco-Decor – Carbon Footprint-Based E-commerce *2024*
Live: eco-decor.netlify.app

- Developed an algorithm to estimate carbon footprint using material type and shipping weight.
- Built reward point system that increased low-emission product purchases by 20%.
- Added filters by emission rating to promote conscious and green shopping habits.
- Helped reduce environmental impact through tech-based product footprint awareness.
